

Statewide Listening Tour

Connecting parent
advocates for people with
developmental disabilities
and sharing experiences to
impact statewide
change.

With

The Arc®

Join other families and leadership from state and local chapters of The Arc at one or more sessions of our Statewide Listening Tour! Share your stories of experiences accessing needed supports and services and your hopes for your family members' futures to help us focus our grassroots advocacy.

We want to ensure family stakeholders are active contributors to decisions that affect their children with intellectual and developmental disabilities and their families. The Arc needs your help to create meaningful change in Maryland!
